Markdown Quick Reference Cheat Sheet

Otros idiomas:
⚠️ The instructions from this guide are referring to the Classic Editor. If you are using the WordPress block editor, please see this guide.

See the Markdown page for instructions on enabling Markdown for posts, pages, and comments on your blog and for more detailed information about using Markdown.

Action	Markdown	Processed
Emphasis	*Emphasize* _emphasize_ **Strong** __Strong__	*Emphasize* **Strong** Some WordPress.com themes may have different formatting for these styles

Action	Markdown	Processed
Inline Links	```A [link](http://example.com``` Most browsers show the title text when hovering over a link. Please note that WordPress shortcodes, like [video] or [audio], will take priority over Markdown links and shouldn't be used for link text.	A **link**.

Referenced Links	```Some text with [a link][1]```
	``` another [link][2].```
	```[1]: http://example.com/ "T```
	```[2]: http://example.org/ "T```
	
	The reference section can be anywhere in the document.
		Some text with **a link** and another **link**.

Action	Markdown	Processed
Inline Images	`Logo: ![Alt](/wp.png "Title` The "Alt" text (alternative text) makes images accessible to visually impaired.	Logo:
Referenced Images	`Smaller logo: ![Alt][1]` `[1]: /wp-smaller.png "Title`	Smaller logo:
Linked Images	`Linked logo: [![alt text](/` `(http://wordpress.com/ "Tit`	Linked logo:

Action	Markdown	Processed
Footnotes	`I have more [^1] to say up [^1]: To say down here.` ▬▬▬▬▬▬▬ Footnotes will be added to the bottom of the document, with a link back to the original reference *****.	I have more [1] to say up here. _____ 1. To say down here. ↵
Line breaks	*We do not support Markdown's typical double-space to generate a line break due to our built-in auto-linebreaking function. A regular line break will generate a line break on output.*	;NBSP

Bullet Lists	`* Item`
